**Subject:** VSPC -- Next Steps Recap & Reminders

The purpose of this message is to recap the deadlines and next steps related to the review of the VELCO Long Range Transmission Plan we agreed to at the January 21 special meeting of the VSPC. At the meeting, we agreed to the following deadlines:

- February 13: deadline for comments on the draft plan and for identifying any disputes that require resolution by the VSPC.
- February 16: agenda and materials out for second special meeting
- February 23: VSPC meeting at Doubletree Hotel in Burlington
- February 29: deadline for final "reply" comments (comments on the comments already filed)

Please send written comments to [Kim Pritchard](#) so they can be shared with the full committee.

A few people have expressed confusion about the next meeting dates because we considered several dates before adopting the current schedule. Please be sure you have **removed the following dates from your calendar: Feb 9, Feb 11. There are no VSPC meetings on those dates.**

Let me know if you have any questions about the schedule.
