Mrs. Susan Hudson, Clerk  
Vermont Public Service Board  
112 State St.  
Montpelier, VT 05620

Re: Docket No. 7081: Investigation into Least-Cost Integrated Resource Planning for  
VELCO's Transmission System

Dear Mrs. Hudson:

Enclosed for filing with the Public Service Board is an original and six copies of a Petition, prefiled testimony, and exhibits on behalf of Vermont Electric Power Company, Inc., and Vermont Transco LLC (together referred to as VELCO) seeking Board approval of ten proposed changes to the Board-approved 2007 Memorandum of Understanding (MOU) in Docket No. 7081.

The proposed changes are filed with the support of the Vermont System Planning Committee expressed in a unanimous motion at its quarterly meeting September 14, 2011. Further, the following parties have specifically authorized VELCO to state their support of the filing in this cover letter: Burlington Electric Department, Stowe Electric Department, Central Vermont Public Service Corporation, Green Mountain Power Corporation, Washington Electric Cooperative and VEPP Inc. as SPEED Facilitator.

VELCO respectfully requests that the Board provide a comment period of three weeks on this filing prior to determining its next procedural steps on the petition.

Sincerely,

  
S. Mark Sciarrotta *KAP*
