

## Energy Efficiency Geotargeting Process

	September	October/November	November 1	December Quarterly VSPC Meeting	December 31
<b>VSPC</b>		GT subcommittee analyzes DU data on existing and possible new GT areas. Develops recommendations and provides to the full VSPC for consideration at the December quarterly meeting.		Full VSPC considers and approves recommendations on next year's GT areas for submittal to the PSB.	VSPC provides GT area recommendations to the PSB.
<b>DUs</b>	Determine area summer peak loads. Update area forecasts. Consider possible new GT areas (although may be brought forward any time of the year.) Provide data to GT subcommittee on existing GT areas and possible new GT areas.		GT annual reports due to the PSB. Includes DU actions and EEU performance.
