

# GMP Tier III Update

# GMP Tier III Goals

- 2017 – 2% of load - 84,000 MWh
- Escalates 2% every 3 years until 2032

## Annual Tier III RES Targets

RES Category	2017	2020	2023	2026	2029	2032
<b>Tier 1: Total Renewable Energy</b>	2,268,000	2,360,400	2,452,800	2,545,200	2,637,600	2,730,000
<b>Tier 2: Distributed Renewable Energy</b>	42,000	117,600	193,200	268,800	344,400	420,000
<b>Tier 3: Energy Transformation</b>	84,000	168,000	252,000	336,000	420,000	504,000

# Residential Tier 3 Programs

- Heat Pumps
- Heat Pump Hot Water Heaters
- Smart Thermostats
- Energy Saver Bundles
- EV Chargers
- eVolve eHomes – Weatherization + Heat Pumps
- Include monitoring and control with all components

# C & I Tier III Opportunities

- Energy Transformation Projects for commercial customers
  - Line Extensions to offset FF Generation
  - Manufacturing Processes
  - Refrigeration
  - Transportation
  - Space and water heating
  - Other creative opportunities to support innovation
