RE: Docket 7081; public member alternate to the Vermont System Planning Committee

Dear Mrs. Hudson:

I am writing to express my interest in being appointed by the Public Service Board to serve as a public member of the Vermont System Planning Committee, specifically as alternate to the person appointed to articulate the interests of residential consumers. I understand that this alternate position is currently vacant.

I have had the opportunity to attend a recent VSPC quarterly meeting and, based on my observation and conversations with members and staff, I believe I can contribute to the committee's work going forward. My experience and current activities related to Vermont's electric system include:

- For many years I was on the Customer Advisory Panel arranged by CVPS.
- I was also on the Committee organized by VELCO to investigate non-transmission alternatives in the service territory of the Southern Loop.
- For over twenty-five years I have researched and promoted a variety of energy efficiency measures and applications of renewable energy technologies.
- I am currently a member of the Energy Committee of the Windham Regional Commission.

Please let me know if the Board requires other information to evaluate my request for appointment, and thank you for your consideration.

Sincerely,

Hervey Scudder

cc. Vermont System Planning Committee
