

Vermont System Planning Committee
Forecasting Subcommittee Meeting Agenda
April 12, 2023
9:30 a.m. – 12:30 p.m.

Meeting link: <https://velco.zoom.us/j/83417975242?pwd=TOZRMmdMVVFXU3dVM3FUZ1VYMVovUT09>

Agenda

- 9:30 a.m. Welcome (Shana Louiselle, VELCO)
- 9:35 a.m. Itron presentation – Vermont Long-Term Forecast Update (Eric Fox and Michael Russo, Itron)
- System load review – solar and heat pump impacts
 - Modeling overview and baseline assumptions
 - Forecast drivers (solar, heat pumps, electric vehicles)
 - Modeling challenges and questions
- 11:00 a.m. Discussion topic – What are Vermont’s flexible load capabilities? (Philip Picotte, PSD)
- What are the existing flexible load programs in place today?
 - How does each program work today, and how will it change in the next 5-10 years?
 - What are the design aspects, such as technology used, and is it voluntary?
 - What data is available to indicate participation rates in relation to the total number of electric vehicles? And in relation to the number of customers in the incentive program?
- 12:00 p.m. Preliminary timeline and milestones (Hantz Presume, VELCO)
- 12:15 p.m. Wrap up, next steps and schedule next meeting (Shana Louiselle, VELCO)
- 12:30 p.m. Adjourn
